

CTS_Level2_007

Write a program to print the pattern .when n=4 and s=3 3 44 555 6666 6666 555 44 3

Input Format

First line denotes the number of test cases. Each line contains two integers n and s

Constraints

$1 \leq n, s \leq 100$

Output Format

print the pattern. leave an empty line for each test case

Sample Input 0

```
3
3 4
5 2
4 1
```

Sample Output 0

```
4
55
666
666
55
4

2
33
444
5555
66666
66666
5555
444
33
2
