

MySlate_C_CON_IF_Level1_011 HackerRank

Write a C program to check the given number whether it is even or odd?

Note : Do not use remainder operator or division operator

Input Format

The first line informs you the number of test cases. Every single line has an integer, that needs to be checked whether it is even or odd

Constraints

$-2147483647 \leq n1 \leq 2147483647$

Output Format

print EVEN or ODD

Sample Input 0

```
3
2
45
60
```

Sample Output 0

```
EVEN
ODD
EVEN
```
