

# CON\_IF\_Level1\_0011

Write a program to check the given number whether it is even or odd?

Note : Do not use remainder operator or division operator

## Input Format

The first line informs you the number of test cases. Every single line has an integer, that needs to be checked whether it is even or odd

## Constraints

$-2147483647 \leq n1 \leq 2147483647$

## Output Format

print EVEN or ODD

## Sample Input 0

```
3
2
45
60
```

## Sample Output 0

```
EVEN
ODD
EVEN
```
