MySlate_C_CSP_CTS_Level2_05

Write a 'C' program to find the GCD of two numbers

Input Format

First line denotes the test cases. Each test cases contain two integers separated by space

Constraints

$1 \leq n1,n2 \leq 10^5$

Output Format

print the GCD of two numbers

Sample Input 0

```
3
36 60
98 56
12345 5670
```

Sample Output 0

```
12
14
15
```
