ZOHO_Level3_009

Find if the second input is a circular number of the first input

Input Format

Input will have two values n1 and n2

Constraints

1 ≤ n1,n2 ≤ 1000000000

Output Format

print yes or no

Sample Input 0

```
12345
45123
```

Sample Output 0

```
YES
```
